

# Aluminium End Stops

Aluminium Sleeves / Stoppers

## Product Overview

Our Aluminium End Stops are the perfect solution for creating a safe and professional finish on any wire rope assembly. Sometimes referred to as stoppers or sleeves, they are designed to be hydraulically pressed onto the wire rope using a suitable swaging tool, creating a permanent stop that prevents fraying and provides a neat appearance.

Their aluminium construction makes them lightweight and naturally resistant to corrosion, ideal for a wide range of general-purpose applications. **Please note these stops are not designed for creating load-bearing eyes.**

## Technical Specifications

The following table outlines the key dimensions and part codes for our range of aluminium end stops.

Wire Dia.	Diameter	Length	Part Code
1.5mm	4mm	5mm	ALES1.54.0X5.0
1.5mm	5mm	6mm	ALES1.55.0X5.6
2mm	5mm	7mm	ALES2.05.0X7.0
3mm	10mm	15mm	ALES3.010.0X15.0
3mm	13mm	13mm	ALES3.013.0X13.0
3mm	7mm	10mm	ALES3.07.3X10.4
4mm	8mm	4mm	ALES4.04.0X7.9
4mm	8mm	10mm	ALES4.07.9X10.0
5mm	13mm	12mm	ALES5.013.0x12.0

**Disclaimer:** The information provided is for guidance and reference purposes only. These end stops are **not load-rated** and are not intended for lifting, load-bearing eyes, or safety-critical applications. A competent person must determine the suitability of this product for any given application. Dimensions and specifications are approximate

and subject to manufacturing tolerances. All fittings should be thoroughly inspected before each use. Deacon Products assumes no liability for the misuse or misapplication of this information or our products.
