

# Copper End Stops

Copper Sleeves / Stoppers

## Product Overview

Our Copper End Stops provide a robust and durable termination for wire rope assemblies. Designed to be fitted using a hydraulic press or a suitable swaging tool, these stoppers create a permanent and neat finish on the wire.

Copper is an excellent material choice due to its high resistance to corrosion, and it is the recommended material for use with stainless steel wire ropes to prevent galvanic corrosion that can occur when dissimilar materials are in contact. **Please be aware that these end stops are intended for creating a neat termination and are not suitable for forming load-bearing eyes.**

## Technical Specifications

The following table outlines the key dimensions and part codes for our range of copper end stops.

Wire Dia.	Diameter	Length	Part Code
1.5mm	3mm	10mm	COES1.53.0X10.0
1.5mm	5mm	6mm	COES1.55.0X5.9
2mm	5mm	7mm	COES2.04.8X6.8
3mm	7mm	10mm	COES3.07.210.3
5mm	15mm	15mm	COES5.015.0X15.0
6mm	14mm	21mm	COES6.014.3>20.9

**Disclaimer:** The information provided is for guidance and reference purposes only. These end stops are **not load-rated** and are not intended for lifting, load-bearing eyes, or safety-critical applications. A competent person must determine the suitability of this product for any given application. Dimensions and specifications are approximate and subject to manufacturing tolerances. All fittings should be thoroughly inspected before each use. Deacon Products assumes no liability for the misuse or misapplication of this information or our products.
