

# Stainless Steel Eye Grab Hook

A4-AISI 316 Marine Grade

## Product Overview

Our Stainless Steel Eye Grab Hooks are a robust and versatile solution for various marine and industrial applications. Manufactured from **high-quality A4-AISI 316 marine grade stainless steel**, they offer superior corrosion resistance and durability. The specially designed narrow throat allows the hook to securely connect to a link of chain, making it perfect for creating adjustable slings, shortening chains, or for use in tie-down applications. The integrated eye provides an easy and secure connection point for wire rope, chain, or other fittings.

**Important Safety Notice:** These hooks are not load rated for lifting. The Minimum Breaking Load (M.B.L.) figures are for guidance only and do not represent a Safe Working Load (SWL).

## Technical Specifications

The following table outlines the key dimensions and Minimum Breaking Loads (M.B.L.) for our range of stainless steel eye grab hooks.

SIZE	A (CATCH DISTANCE)	L (LENGTH)	M.B.L. (KN)	PART CODE
1/4"	13mm	50mm	26.7	SSEGH06

SIZE	A (CATCH DISTANCE)	L (LENGTH)	M.B.L. (KN)	PART CODE
5/16"	15mm	58mm	35.6	SSEGH08
3/8"	19mm	66mm	44.5	SSEGH10
1/2"	23mm	76mm	64.0	SSEGH12

**Important Safety Notice:** The information provided, including Minimum Breaking Loads (M.B.L.), is for guidance and reference purposes only. Dimensions and specifications are approximate and subject to manufacturing tolerances. **These hooks are not load rated for lifting and must not be used for any lifting, load-bearing, or safety-critical applications.** The M.B.L. figures are for guidance only and **do not represent a Safe Working Load (SWL)**. A competent person must determine the suitability of this product for any given application. Deacon Products assumes no liability for the misuse or misapplication of this information or our products.
