

# Stainless Steel Untested Eyenut DIN 582

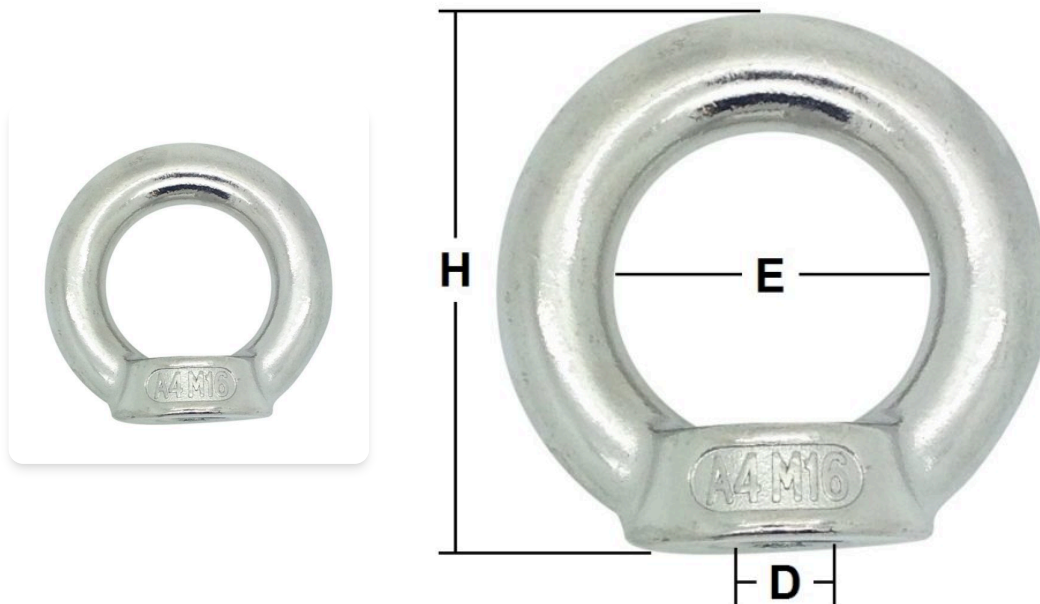

Conforms to DIN 582 Dimensions - Not for Lifting

## Product Overview

Our Stainless Steel Untested Eyenuts are manufactured from A4 (316) grade stainless steel and conform to the dimensional standards of DIN 582. They provide an excellent solution for creating attachment points on threaded studs or bolts, especially in outdoor or marine environments where corrosion is a concern. The collar provides a flat seating surface for a secure fit when tightened.

**Important Safety Notice: These eyenuts are untested and are NOT rated for lifting. They must not be used for any lifting, load-bearing, or safety-critical applications.**

## Technical Specifications
